5. Dividend Reinvestment Plan

EBOS operates a dividend reinvestment plan ('DRP') for its shareholders. All shares issued under the DRP rank pari passu with existing issued shares. Details of the dividend reinvestment plan can be found on the company's website www.ebosgroup.com. The last date for the receipt of an election notice for participation in the DRP for the 2015 interim dividend is 16 March 2015.

The price of each EBOS share to be issued under the DRP is the volume weighted average sale price ('VWAP') in NZD for a share calculated on all price setting trades of shares which take place through the NZSX Main Board over the 'DRP Pricing Period'.

If no sales of shares occur during the DRP Pricing Period then the VWAP will be deemed to be the sale price for a share on the first price setting trade of shares which takes place after the DRP pricing period. If in the opinion of the EBOS Board, any exceptional or unusual circumstances have artificially affected the VWAP, EBOS may make such adjustment to that price as it considers reasonable.

The EBOS Board has approved a discount of 2.5% to the VWAP for the shares to be issued under the DRP for the 2015 interim dividend.
